ABOUT ME

Hey! I'm Muhammad Behram Hassan, a software enthusiast from Gujranwala. I thrive on coding and design, with expertise in Java, C/C++, and web technologies like HTML/CSS/JavaScript. Experienced in business analysis and software development, I'm passionate about crafting impactful solutions. Let's connect and bring ideas to life!

WORK EXPERIENCE

AGRIMARKET | E-FARMING PLATFORM
May 2023 - Aug 2023

Description:
Developed an e-farming platform for buying and selling agricultural products. Featured a user-friendly interface, bidding system, secure payment processing, and user reviews. Also included a section for farming resources and advice.

Skills Used:

HTML, CSS, JavaScript, React, Node.js, Express, MongoDB, Bootstrap, Tailwind CSS

Experience Gained:
- Created intuitive user experience with **React** and **Tailwind CSS**.
- Built scalable **back-end** with **Node.js** and **Express** for product listings and transactions.
- Utilized **MongoDB** for efficient data storage.
- Implemented secure payment processing for safe transactions.
- Enhanced trust with user reviews and ratings.
- Managed real-time data and notifications for bid updates

COURIER MANAGEMENT SYSTEM | FASTTRACK
Aug 2022 - Dec 2022

Description:

Developed a robust courier management system to streamlin the process of package tracking and delivery. The system includes real-time tracking, delivery status updates, customer notifications, and an administrative dashboard.

Skills Used:
PHP, MySQL, JavaScript, React, Bootstrap, Tailwind CSS

Experience Gained:

- Strengthened back-end development skills with **PHP** and **MySQL** for data management.
- Utilized React and **Bootstrap** for a responsive and **user-friendly interface.**
- Implemented real-time features using WebSockets for live tracking updates.
- Enhanced **project management skills** by coordinating with a team of developers and stakeholders.
